Get to know our
Staff App

CONNECTING EVERYONE
TO THE BUSINESS

The Time Point app connects the entire workforce on one platform, automating everyday tasks and reducing back-office admin times.

Managers and Departments can send push notifications and receive updates from staff members at any time.

Automate tasks, send staff rosters, documents, approve or decline holiday and absence requests online, update personnel details.

Built-in clocking option, staff can clock shifts and breaks start and end times, GPS location tracking with geofence workplace settings.

Key Features

Staff can view their rosters & shift times

Send holiday & absence requests

**Approve or decline any staff requests**

View holiday & lieu and absence balances

Update and confirm staff personnel details

Digitally accept contracts & documents

Clock in & out for shifts, breaks and jobs
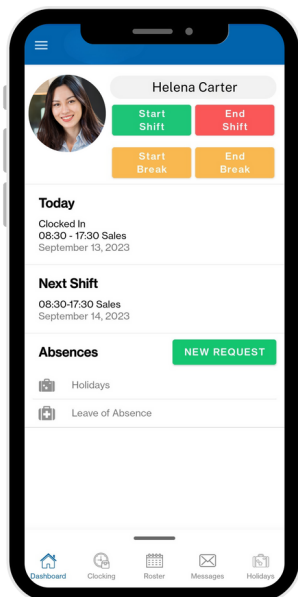

Records GPS location & geofencing

Connect your staff

Plan your rosters, send shifts and rotas that staff members can instantly view on their TP app.

Manage shift changes

Update rota shift changes as they happen, send shift offers, assign existing shifts, add new shifts

Process absences

Approve or decline staff holiday requests, record paid or unpaid absences, auto-updates balances.

Holiday checker

Staff can view dates already booked before they are requesting time off, set limits by department.

Plan to Demand

Fast and easy, create rosters in a few clicks that cover the business's staffing requirements all the time.

Manage Change

Maintain staff coverage, view alerts on all shift changes, and ensure staff levels are maintained.
