HOSPITALITY

Workforce Management & HR Solutions

One platform, one system

ROSTERING & SCHEDULING

Building rosters is fast and easy. Load previous weeks or shift cycles. Type or drag & drop, daily or weekly shifts.

View all staff coverage times, hours, costs, budgets and deviation from budgets, holidays, absences, visa expiries, compliance breaches and add comments.

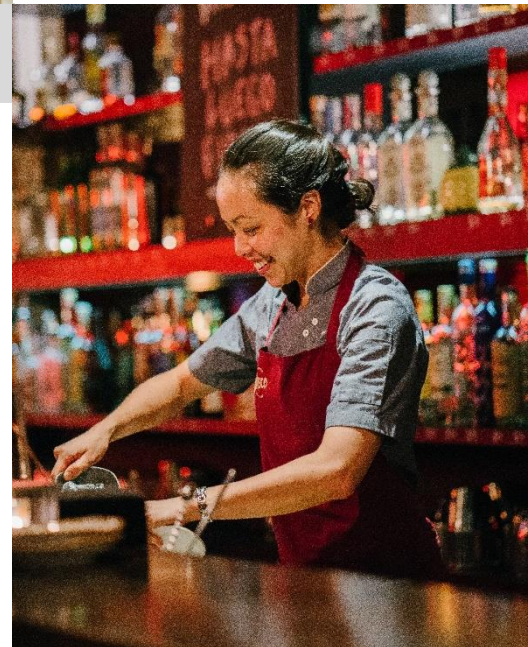

TIME & ATTENDANCE

Automatically records all the start and end times for each staff member's shifts and breaks.

Accurately interpreting, applying, and processing all the working rules of the business to calculate the finished timesheet pay categories ready to link to payroll.

ABSENCE MANAGER

Tracks and calculates every staff member's absence in accordance with company policy and all statutory requirements.

Create paid and unpaid absence reason codes for scheduled and unplanned time off that meets policies and staff contracts.

HOLIDAY BALANCES

Time Point Cloud is one system tracking and updating every staff member's annual leave, lieu, and public holiday entitlements.

Accuracy from the beginning, applying your working rules, any carry forward values, and adjustments.

PAYROLL INTEGRATION

Paperless, multi-user, cloud-based access for managers to fix their own teams' exceptions and approve timesheets, for seamless integration to payroll.

Works the way you work. Send weekly, biweekly, monthly or period timesheets to multiple payrolls.

For the way you work today

HOSPITALITY DATA ANALYTICS

Time Point Cloud is one system comparing budgeted sales and staff costs against actual trading performances.

One platform connecting and updating key managers and department heads on their sales and staff costs.

HR MANAGER

Covering every staff member's entire lifecycle from hire to retire all in one place.

Automating, managing and scheduling manual processes; go paperless, and connect with all your staff.
Applying policies, processes, and procedures while recording every staff member's performance.

ONBOARDING

Contracts and training / onboarding material can be sent and reviewed with paperless, digital acceptance sign off.
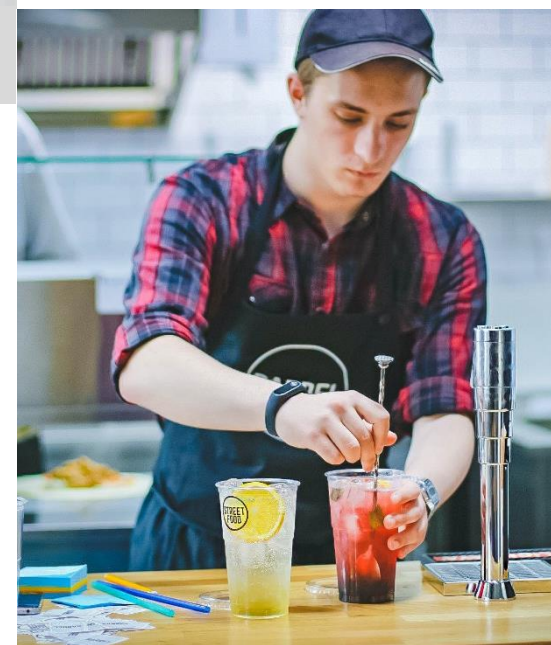

Categorise and issue onboarding material for different roles and functions. Track and manage when sent, downloaded and when digitally accepted, sending reminders where necessary.

STAFF APP

Employees can view their shifts & rosters, holiday & lieu balances, request time off, clocking for shifts, view documents, receive messages, digitally accept onboarding material.

Managers and Departments can send push notifications and receive updates from staff members at any time and from anywhere.

EVERYTHING YOU NEED
for an even more efficient workforce.

"

We have been working with Time Point for nearly twenty-five years now,
and at all times we have experienced nothing but excellent support.

We have started transitioning over to Time Point Cloud, which is a must have
management tool, with key reporting metrics that assist every department in the
business on a daily basis, in an always on environment.
